

Parcours d'avenir

The pupils of 3^e have one hour a week of this subject called « Parcours d'avenir ». The aim is to help the students build their career project and also to make them discover the company. Every Wednesday mornings we work on activities which allow them to:

- Know themselves better
- Find out about different diplomas and training courses
- Discover how a company works
- Get ready for the work experience.

We work with the teachers in the workshops to help them build their career projects.

Today, we are going to work on the writing of a resumé. It's very important to have a job interview.

Stage 1 : What is a resumé ?

In little groups, they will have to work on 2 questions :

- *What is a resumé for ?*
- *What information should I put in it ?*

Then, in each group a secretary gives the group's answers to the class and we talk about it.

Stage 2 : I write my resumé

Each student is going to write his/her resumé on the computer. To help them writing it, the students will be given an example and a list of instructions.
